IPVANISH Advancing Trust Through Transparency

Trust in digital security requires more than strong encryption—it demands accountability. IPVanish is strengthening its commitment to transparency with a new Trust Center on its website, offering insight into its data protection practices through transparency reports, independent audits, and other industry initiatives.

Independent Audit Confirms IPVanish's No-Log Commitment

Reaffirming its dedication to user privacy, IPVanish has undergone an independent no-log audit. The audit verifies that IPVanish does not track, log, or store user activity or network data. This ensures that IPVanish's no-logs policy is consistently applied across all servers and subscription tiers, further solidifying the company's reputation as a leader in online privacy.
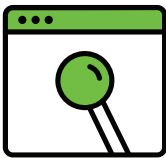

Transparency Report Published to Bolster Accountability

IPVanish is releasing a Transparency Report as part of the new Trust Center.
In addition to reporting on data requests each quarter, along with quick access to independent audits, the Trust Center showcases the data protection practices, industry initiatives, and ongoing efforts by IPVanish to develop new security-focused technologies.
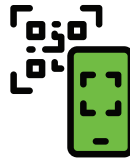

New Tools to Keep Users Safe

Beyond the latest releases in the independent no-log audit and transparency report, some service updates have been released in the last month. Here's what's new at IPVanish:

Link Checker
Now on Desktop & Mobile

- Scans URLs for phishing and hidden threats

- Quick-access widgets for checking links from messages, email, and social media posts

- Secure cloud-based scans with instant risk assessments

QR Code Checker
Available for Android and iOS

- Scans QR codes to detect malicious links and phishing traps

- AI-powered threat reports and screenshots help verify URLs

- Ensures safer browsing before opening a QR code link

WireGuard® Config Generator
Accessible from My IPVanish

- Simplifies manual WireGuard setups for routers, Linux, and other devices

- Generates custom configuration files for flexible, secure connections

- Available in the My IPVanish customer account portal on the web

Explore the Trust Center at ipvanish.com/trust for full details on IPVanish's privacy commitments and security initiatives.
